**Guidelines and Standard Operating Procedures for the Commencement of Academic Year 2020 – 21.**

The Universities and colleges are expected to implement blended learning system integrating conventional and online teaching and learning. They have to also introduce evaluation system using online and offline methods. The new challenges due to the prevailing situation can be better faced through blended learning systems. **The resurgence plan for academic continuity provided by APSCHE may be followed to introduce blended learning system.** The institutions are expected to develop workable models to continue the academic process without compromising quality and standards. Extra efforts are needed to ensure smooth functioning and to engage students, teachers and other staff to perform their duties and responsibilities effectively. The following are the SoPs and guidelines for making all the required facilities and services available for the effective functioning.

The **Standard Operating Procedure** outlines various generic precautionary measures to prevent spread of COVID-19, when Universities and Colleges are permitting students on the campus for the academic year 2020 – 21. ##### **b) Conduct of guidance activities in the rooms or open spaces within the campus:**

- i. Seating arrangement to ensure a distance of 6 feet between chairs, desks etc.
- ii. Staggering of guidance activities to be done, with separate timing slots, to allow for adequate physical distancing and disinfection of classroom premises.

Staggered timings of commutation need to be practiced. For example, the college timings need to be staggered. For some batches the college may start at 09:00am and for others at 10:00 am to avoid overcrowding during commutation.

#### **4. Teaching Learning Activities after reopening**

##### **Instruction Methodology:**

The Universities and Colleges are advised to follow blended learning system. The combination of conventional class room teaching and online teaching shall be implemented.

- At any given point of time, there shall be only 1/3<sup>rd</sup> strength on the college campus and in hostels. The students who are not permitted to the campus for conventional class room teaching shall be engaged through online teaching and learning methods until they get their turn to the college campus.
- Flipped mode of learning need to be practiced, a combination of both in person classroom teaching and learning at home.

*The instruction shall be for a period of 10 days for 1/3<sup>rd</sup> of students, for 1<sup>st</sup>/2<sup>nd</sup>/3<sup>rd</sup> or 4<sup>th</sup> year of study as the case may be. Thus, the institutions have to run classes on the campus for 1/3<sup>rd</sup> of the programs at a given point of time and the class work shall be planned in such a way that COVID guidelines are followed with our any compromise. For example: Let us consider **B.Sc. Programme with Botany, Zoology & Chemistry**. For the first 10 days, only 1<sup>st</sup> year students shall attend the classroom instruction. 2<sup>nd</sup> and 3<sup>rd</sup> year students shall be engaged online. For the next 10 days, only 2<sup>nd</sup> year students shall attend the classroom instruction, 1<sup>st</sup> and 3<sup>rd</sup> year students shall be engaged online. Similarly, for the next 10 days, only 3<sup>rd</sup> year students shall attend the classroom instruction, 1<sup>st</sup> and 2<sup>nd</sup> year students shall be*

*engaged online. The cycle shall be repeated after the first three 10-day duration of instruction is completed.*

*Even for a particular class, say, 1<sup>st</sup> year, the students shall be split into 3 or more groups and staggered timetable shall be followed. For one group if Botany is taught in the 1<sup>st</sup> period, for the second group Zoology is taught in the same 1<sup>st</sup> period and for the third group Chemistry is taught. For the 2<sup>nd</sup> period the subject taught shall be swapped. For the 2<sup>nd</sup> period, 1<sup>st</sup> group will be taught Zoology, second group will be taught Chemistry and Botany is taught for the third group. Similarly, language / Life Skill Courses / Skill Development Courses can follow a staggered timetable. (the institutions can select the programs to be offered on the campus at a given point of time).*

- However, it is not mandatory that the students should attend the College. An option is to be given to the student either to attend the College or learn from home. The College administration shall make arrangements for broadcasting live/recorded lectures or to make learning material available to the students not attending the classes.
- In this 10-day instruction, an over view of at least 2 or 3 units/1/3<sup>rd</sup> of the syllabus shall be given to the students.
- Students of a particular class can be divided into two sections and teachers can be drafted to teach both sections simultaneously, wherever feasible.
- The laboratory work also shall be completed simultaneously, giving due weightage.
- After completion of the 10 days of instruction, the students of the batch will leave the campus and the inmates need to vacate the hostels. Hostel accommodation shall be given to the students for the 10 working days only and not for the full academic year. The next batch of students will take hostel admission for 10 days.
- Staggered timetable shall be worked out for different semesters. The respective Universities and colleges shall facilitate the instruction as per the available infrastructural facilities.
- The duration of each class shall be 45 minutes with a break of 5 to 10 minutes between the classes.
- After the end of each class, the students shall be asked to leave the class and to go into the open, by maintaining social distance and come back after 5 or 10 minutes for next class.
- Toilets shall be cleaned/disinfected in every hour.
- After the end of the 10 days of instruction on campus, the students need to be given the entire learning content as lecture notes as well as the schedule to be followed for the next 20-days on a day-to-day basis.

- Students should be made to actively engage with the teaching-learning process even when they are at home, till they come for the next round of classes. The faculty presence should be ensured by way of Whatsapp groups or through asynchronous learning using google classroom or through video conferences using free software like zoom or jitsi or google meet etc.
- Assignments/Quizzes, etc, are to be administered through email for the students for the next 20 days and evaluation is to be done and communicated promptly. Assessment records shall be maintained.
- The detailed video / audio lectures shall be uploaded on the college website to facilitate learning while at home.
- Student attendance shall be recorded and monitored to satisfy 90 working days.
- The second 1/3<sup>rd</sup> of the students shall attend physical classes after the first 10-days of instruction is completed for the first 1/3<sup>rd</sup> batch of students and then followed by the last 1/3<sup>rd</sup> batch of students, until the syllabus is completed.
- Class Time-Tables need to be worked out accordingly.
- The same cycle shall be continued till the end of the semester.
- Social distancing and other health-and-safety precautions need to be followed.
- Students of one class shall not mingle with students of another class.
- While attending college, a congregation of more than 3 people outside the classroom shall not be allowed.
- Proper ventilation shall be ensured in the classrooms. Doors and windows shall be kept opened.
- Sports and other extracurricular activities are strictly banned.
- Students, after going home shall take bath and keep away from old people and people with co-morbid conditions.
- All students shall be explained the importance of not spreading the infection to the family members at home, particularly to people at high risk.
- For Engineering, Pharmacy and Non-Professional UG Programmes, the revised curriculum with effect from 2020-21 shall be followed.
- Separate guidelines will be issued for community service project for 1 year of Non-Profession UG programmes.

## 5. Revisiting the Hostel Accommodation:

- Hostel accommodation shall be provided to the students wherever possible following COVID protocols.
- Only one-third of the accommodation may be filled.
- Single room accommodation needs to be provided to students as far as possible. No crowding shall be allowed at any point of time. Big common halls or common rooms or TV rooms also could be used for the purpose of accommodation.
- Hostel accommodation shall not be given for any inmate on a continual basis for the entire academic year. Inmates need to stay in hostels only when the instructional classes are conducted physically.
- **Usage of Common Areas:** Common areas such as washrooms will need to follow the washroom sanitization guidelines stated above. Other common areas within the student housing used for communal gathering will need to be suspended, and used on a need-only basis based on authorization of hostel warden.
- **Sanitization Procedure**  
Room provisions such as bed linen, and overall sanitization will need to have additional procedures in place. The rooms will have to be sanitized more periodically.
- **Emergency Protocol**  
An emergency protocol will have to be defined in case a student is found symptomatic or has tested positive for COVID-19, to ensure calm is maintained and necessary actions are taken to quarantine and test peers living in the same accommodation.

## 6. Hygiene and Sanitation:

- i. Daily cleaning of the floors shall be taken up.
- ii. Provision of soap in toilets and hand sanitizers in other common areas in sufficient quantity must be ensured.
- iii. Cleaning and regular disinfection (using 1% sodium hypochlorite) of frequently touched surfaces (door knobs, hand rails, chairs, benches, washroom fixtures, etc.) to be made mandatory in all class rooms, laboratories, other common areas etc. before beginning of classes and at the end of the day.
- iv. Teaching materials, computers, laptops, printers, shall be disinfected with 70% alcohol wipes.

- v. Deep cleaning of all drinking and hand washing stations, washrooms and lavatories shall be ensured.
- vi. Students and employee should be advised to dispose of used face covers / masks in separate covered bins placed in classrooms, work stations and other common areas. The same may remain stored in the bins for 3 days and disposed of as dry general solid waste after cutting/shredding.
- vii. Students should not be involved in any of the cleaning activities for health safety reasons.
- viii. The HEIs shall build capacity of lecturers/teachers to sensitize them about SoPs for preventing spread of COVID-19 infection.

## **7. Risk Communication**

- i. Create awareness to ensure the students do not gather when leaving the school and in their free time.
- ii. Sensitize students, parents, faculty and employees to create awareness on COVID appropriate behavior, as detailed under generic measures above.
- iii. If a student, faculty or employee is sick, they should not come to the school and follow necessary protocols in this regard.

## **8. Psycho-social wellbeing**

- i. Ensure regular counseling is done for students and faculty reporting mental health issues such as anxiety and depression.
- ii. It is recommended that mentorship assignments are put in place formally, and mentor-mentee discussions are recorded into an action plan and shared with the mentee.
- iii. It is advisable that faculty, counselors and/or mentors should work in unison to ensure emotional safety of the students.

## **9. SOP to be followed in case a student/faculty/employee develops COVID symptoms (fever, cough, difficulty in breathing)**

- i. Place the ill person in a room or area where they are isolated from others.
- ii. Inform parents/guardians as the case may be.
- iii. Patient will remain isolated while wearing a mask/face cover till such time they are examined by a doctor.

- iv. Immediately inform the nearest medical facility (hospital/clinic) or call the state or district helpline.
- v. A risk assessment shall be undertaken by the designated public health authority (district RRT/treating physician) and accordingly further action be initiated regarding management of case, their contacts and need for disinfection.
